MAJOR WORKS IN PROGRESS

Theatre and Performance Theory (General Editor of monograph series, Cambridge University Press). Each volume in the series introduces a key issue about theatre's role in culture. Specially written for students and a wide readership, each book uses case studies to guide readers into today's pressing debates in theatre and performance studies. Topics include contemporary theatrical practices; historiography; interdisciplinary approaches to making theatre; and the choices and consequences of how theatre is studied; among other areas of investigation.

Transnational Theatre Histories (Co-Editor with Christopher Balme and Catherine Cole, monograph series with Palgrave MacMillan) documents and theorizes the theatre as a global phenomenon in relation to imperial expansion, transnationalism, modernization, changing mobility and communications, migrations, and trade routes from the mid-19th through 20th centuries. Theatre's involvement in these processes – as promulgator and symptom – addresses both globalization studies and transnational history.
